NETS ACCEPTANCE TEST

Name of Service Provider: Weilong Electronics Pte Ltd

Terminal Used: VX700 Sankyo Reader

Service Provider's Application Version Number : 3.02

System Integrator: Weilong Electronics Pte Ltd

Tests Done:

1. Verified that the test was successfully conducted based on the usage of test cards.
2. Verified that the transaction count and amount tallied with NETS backend report.
3. Reversal handling was tested by disconnecting the telephone line from the NETS terminal.
4. Type of Payment Intergrated (NETS Payment and Cashcard Topup)

Testing Remarks (If Any):

1. The system should cater for possible issues that may arise in the event the terminal has approved the transaction but the POS does not receive the successful terminal response.
2. This document does not provide a guarantee of any potential issues that could arise in the future.
3. It is recommended that all parties monitor the live transactions coming in for a period of time so as to ensure that everything is in order.
4. The acceptance test results indicate the payment module functions as per NETS requirements and the scope of testing only pertains to the POS application-NETS terminal interface.
5. This document is issued on the basis that no major software bugs pertaining to the POS application-NETS terminal interface were discovered at the point of testing.
6. The test was conducted in the presence of Weilong personnel.

Director

NETS CERTIFICATION

Project: Automatic Parking System

Name of System Integrator: Wei Long Electronics

APS software version: Version 1.5

NETS Terminal used: CPT

Terminal Software version: INT 816

Certification Done:

1. Verified that the test was successfully conducted based on the usage of cash card for parking payment and the settlement procedure through FTP method.
2. Verified that the transaction count and amount tallied with NETS backend report.

Certification Remarks (If Any):

Please take note that this certification is only based on the current software version number and the usage of cash card for payment only. Another certification is required when there is a change in the software version.
